SEAN PATRICK IGNATIUS TARTAGLIA

LASSO
CONSONO-CHROMATICO-
ENHARMONIO

Cantor and Orchestra

2022

INSTRUMENTS

2 Flute
2 Oboe
2 Bassoon
Contrabassoon

2 Horn in C (Natural)
2 Trumpet in C (Natural)

Harp
Piano (also Celesta)

Percussion (2 Players)
1. Gong 2. Crotales
ageng Bells
(nipple
gong)

Strings

The divisions and ratios of strings is as so:

Effetto
Violins. determine the players proportionally to the other string groupings.

Cantor
1 Violin and 2 Violas.
Determine the players at a 1:2 ratio. Intended as solo.

Firmus
String quartet. Determine the players at a 2:1:1 ratio. Intended as solo, but doubling for the sake of balancing dynamics is acceptable.

Armonia
The remaining strings.
Balance as necessary.

GROUPINGS

Effetto

Celli
Contrabasses

Staging

Performance Time
approximately 5-6 minutes

GENERAL NOTES

All instruments are read in C.

Contrabassoon sounds an octave lower than written.

In general I make an attempt to repeat accidentals where a spelling could be confused; however, where a pitch sounds multiple times in a row I do not rewrite the accidental, it remains true until the next bar or a natural is written.

A slightly modified form of standard notation is used.

The text is both a structural and musical aspect of the music: it defines the *rhythm* and *rate* of the music.

Single bar lines are used to differentiate music taking place within a word, i.e. designating the music for each syllable. Double bar lines are used to designate the musical distinction between words.

Barlines do not function metrically (there is no true meter), sections within syllables may be longer or shorter than other syllables.

The conductor/cantor beats out the individual sections of each syllable at a rate roughly within quarter note crochet = 85-100. There should be a clear distinction between words, but not too long of a pause.

The music is to be read in full score. The orchestra is divided into five groups. Each grouping is given copies of the pages they perform on in lieu of parts, and the conductor uses the full score to guide their playing.

Each instance of a note is to be played in the manner instructed to the performer in the notes, no other playing comment will be made. If an instrument naturally decays, e.g. a keyboard, then it is to decay. If an instrument naturally sustains, e.g. a flute, then it is to sustain.

Dynamics are static according to the instructions, but should be modified in practice to be generally equivalent across groupings as to maintain a singular sound. The ideal is one sound composed of multiple layers, so the dynamic quality that is important is not one that highlights loudness or softness, but rather density. The page is organized in such a way that the layers consist of those sounds that occur above—or emerge from—and those sounds that exist within, according to the sonic qualities of the voice.

Effetto

Where specified, the instruments perform a harmonic (*o*) or multiphonic (*chord*). The harmonic content of the multiphonic is indeterminate, the only defined value is the root tone. Divisi writing is to not be confused with a doublestop or a harmonic figuration. *Very quiet*.

Flute: Where natural harmonics are not possible, overblowing may serve a similar purpose.

Horn: Equivalent pitch in the harmonic series.

Trumpet: Equivalent pitch in the harmonic series.

Violin: Artificial harmonics stopped at the 3rd or 5th. Chords should be played, if possible, with a high degree of vibrato.

5vv

If possible for the performers, they should vocalize the words through the instruments. *Piano*.

Firmus

The best string players should be set aside to perform alternative intonation of pitches. The differences are designated in their deviation in cents from the equal tempered equivalent, e.g. +27 written over D# will be slightly closer to E. The cent markings are exact, but are not absolute and are more a guide toward a desired tone. All play *senza vibrato*. *Piano*.

Armonia

Chords of varying complexity will be written. The performers may pick a few notes or all of them, and they may play them at any time the notes are valid. Whatever is played should decay naturally. *Very quiet*.

Percussion: A comment will define what instrument should be played.

Piano: A comment will define what instrument should be played.

Strings: Pizzicato.

Cantor

Ideally the cantor role is fulfilled by a unique performer working within the grouping. If it is not possible for a cantor to be sourced, the conductor should fulfil the role, as the expression of the text determines the motion of the music. The cantor himself works with the text and has his own notation.

The two staves represent the sound of the cantor's voice: percussive consonants with trails of vowels. The articulation of a pitch is related to the syllable the note first occurs on: when a consonant begins a syllable, e.g. *ch*, vs when a vowel begins, e.g. *am*. If a note is sustained the articulation remains unchanged, in spite of the change in syllable.

Harp: Sur la table on consonants. Harmonic tone in ordinary position on vowels. Decay naturally. *Mezzoforte*.

Violin: Artificial harmonics stopped at the 4th. Give the tone a slight accent at the beginning on consonants. *Forte > al niente*.

1st Viola: Col legno with very slight hair on the string, sul ponticello. *Sforzando > piano on consonants. Piano on vowels*.

2nd Viola: Molto sul tasto. *Dal niente > piano*.

Percussion: Follows the Violas. A very soft, deep tone to accentuate the undertones of the voice. Roll tied notes, but strike once for singular ones.

Cantor: Black syllables are spoken tones. Red syllables are intoned tones. All tones are determined by the sound of their respective vowels, e.g. A, [eɪ], sounds as if *Re* in solfege. Over some red syllables there will appear black cantillation marks which represent vocal contours of indeterminate pitch, length, and breadth. Cantillation marks always occur after the sound of the vowel is clearly intoned.

quibus nos tunc olim tunc

The image shows a handwritten musical score for a cantor. It consists of two staves of music. The top staff is in treble clef and the bottom staff is in bass clef. The lyrics 'quibus nos tunc olim tunc' are written in red cursive script between the two staves. The music is written in black ink. The top staff has a treble clef and a key signature of one flat (B-flat). The bottom staff has a bass clef and a key signature of one flat (B-flat). The lyrics are: 'quibus nos tunc olim tunc'. The word 'quibus' is on the first line of the top staff, 'nos' is on the second line, 'tunc' is on the third line, 'olim' is on the first line of the second system, and 'tunc' is on the second line of the second system. There are some decorative flourishes and a wavy line above the second 'tunc'.

effetto

A musical staff in treble clef with a key signature of one flat (Bb). It contains four measures of music. The first measure has a half note G4 with a fermata. The second measure has a half note A4 with a fermata. The third measure has a half note Bb4 with a fermata. The fourth measure has a half note C5 with a fermata. Slurs connect the notes across the measures.

A musical staff in treble clef with a key signature of one flat (Bb). It contains four measures of music. The first measure has a half note G4 with a fermata. The second measure has a half note A4 with a fermata. The third measure has a half note Bb4 with a fermata. The fourth measure has a half note C5 with a fermata. Slurs connect the notes across the measures.

cantor

CB nB

A musical staff in bass clef with a key signature of one flat (Bb). It contains four measures of music. The first measure has a half note G2 with a fermata. The second measure has a half note A2 with a fermata. The third measure has a half note Bb2 with a fermata. The fourth measure has a half note C3 with a fermata. Slurs connect the notes across the measures.

P u h

Handwritten musical score for five staves. The notation includes treble and bass clefs, various note values (quarter, eighth, and sixteenth notes), rests, and accidentals (sharps, flats, and naturals). A vertical line on the left side of the first two staves is labeled "5w". The score is divided into measures by vertical bar lines, with some measures containing repeat signs.

car III III

Handwritten musical score for the upper section, including staves for *effetto*, *5w*, and *cantor*. The score features various notes, rests, and chord markings. The word "chord" is written above the first and third measures of the *effetto* staff. The *5w* section consists of two staves, and the *cantor* section is a single staff.

chro mto ti co qure

Handwritten musical score for the lower section, including staves for *cantor*, *firmus*, and *armonia*. The *cantor* staff contains the lyrics "chro mto ti co qure" written in red. The *firmus* section consists of two staves with numerical annotations: +17.59, +3.91, -1.95, +13.68, +15.64, and +11.73. The *armonia* section consists of two staves, with the word "celesta bells" written above the first staff.
